Will Your Case Fit?*

PowerSync Cart 30 for iPad (Lightning)

Step 1: Check Connector Opening

All PowerSync products, including cables, are designed and certified to meet Apple Made for iPad (MFi) specifications. For devices with Lightning, Apple recommends that cases should be designed with a connector opening measuring 13.65 mm by 6.85 mm. Any case that complies with this guideline will be compatible with the Bretford Lightning cable.

- Please consult the case manufacturer prior to purchase.

Step 2: Check Case Thickness

- Lay your case flat in the paper. If the case fits within the perimeter of the paper, the height and depth of the storage slot will accommodate the case.
- Place the case on its end in the smaller printed rectangle below. If the case fits within the outline, the width of the storage slot will accommodate the case.

PowerSync Cart 30
Part Number HB716
